

KickIT@Eclipse/2_Control
/TableControl/TableControllerMock.hpp

```
graph BT; A[KickIT@Eclipse/2_Control /TableControl/TableControllerMock.cpp] --> B[KickIT@Eclipse/2_Control /TableControl/TableControllerMock.hpp]; C[KickIT@Eclipse/KickIT@Eclipse.cpp] --> B;
```

The diagram illustrates a header file inclusion relationship. At the top is a grey rectangular box representing the header file: `KickIT@Eclipse/2_Control /TableControl/TableControllerMock.hpp`. Below it are two white rectangular boxes representing source files. The box on the left is `KickIT@Eclipse/2_Control /TableControl/TableControllerMock.cpp`, and the box on the right is `KickIT@Eclipse/KickIT@Eclipse.cpp`. Two blue arrows point from the bottom of each source file box to the bottom of the header file box, indicating that both source files include the header file.
