The diagram illustrates a header file inclusion relationship. At the top is a grey rectangular box representing the header file: `KickIT@Eclipse/2_Control /RowControl/RowControllerDefense.hpp`. Below it are two white rectangular boxes representing source files. The left box is `KickIT@Eclipse/2_Control /RowControl/RowControllerDefense.cpp` and the right box is `KickIT@Eclipse/2_Control /TableControl/TableControllerImpl.cpp`. Two blue arrows point from the bottom of each source file box up to the header file box, indicating that both source files include the header.
